- Game Maker Studio 2

About me

A third-year IT student interested in technology and games. I am a sporty person and do a lot of creative activities in my spare time, such as music, drawing and video games. In a group, I am the one who take over the situation, if the eager leaders do not stand up. I like doing my work carefully and on time, and I look after the progression of our teams common goals. However, I am a humorous and cheerful guy. I'm not afraid of new challenges because I rely on myself and my ability to learn new things as long as I put my mind to it.

Education

INFORMATION TECHNOLOGY, University of Jyväskylä | 01.2017-

- In addition to major studies, I also study business as a minor subject. Master's degree in direction of game studies.
