PERSONAL PROFILE

I am a fresh **IT graduate** from University of Jyväskylä. On my I studies focused on game development and graphics.

At the moment I am a **game artist** at Unibyte Studios. I provide all the graphical bits and pieces from game assets to marketing material. I also produce game **music and SFX**.

In addition, I am a **freelance artist**. I have made little bit of everything from band shirts and skateboard designs to company logos and social media postings.

I do know how to code, but my interests in game development lie on a creative field such as **graphics**, **animation** and **audio**. Remember to check out my **web portfolio**.
