ABOUT ME

Panu Robert Niskakoski

Mixed-media game artist and a designer with
over 6 years of experience on commercial
game development and entrepreneurship.

Master of Science (IT)

★ **2D / 3D artist & Animator** ★

★ **Game / Level Designer & Programmer** ★

★ **Music & SFX producer** ★

GOBLIN'S DIE

2024 – NOW
MM ARTIST + GENERALIST

FULLY REMOTE
COMPANY

[TO STORE PAGE](#)

GENERALIST

**As a full-time mixed-media artist and a generalist
my tasks vary widely and include:**

**2D art (concept + assets) • Level / Game / UI design
(documents also) • Marketing creatives
(static + video) • Configuration • QA & Testing**

[3D art in the project images is created by Lance Baker]

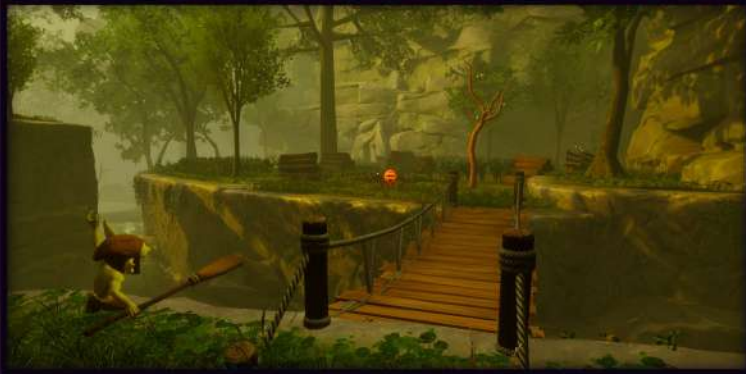

CONCEPT

I've helped concept visuals and mechanics.

Done hundreds of UI icons & elements and produced the UI design layouts.

HANDYMAN

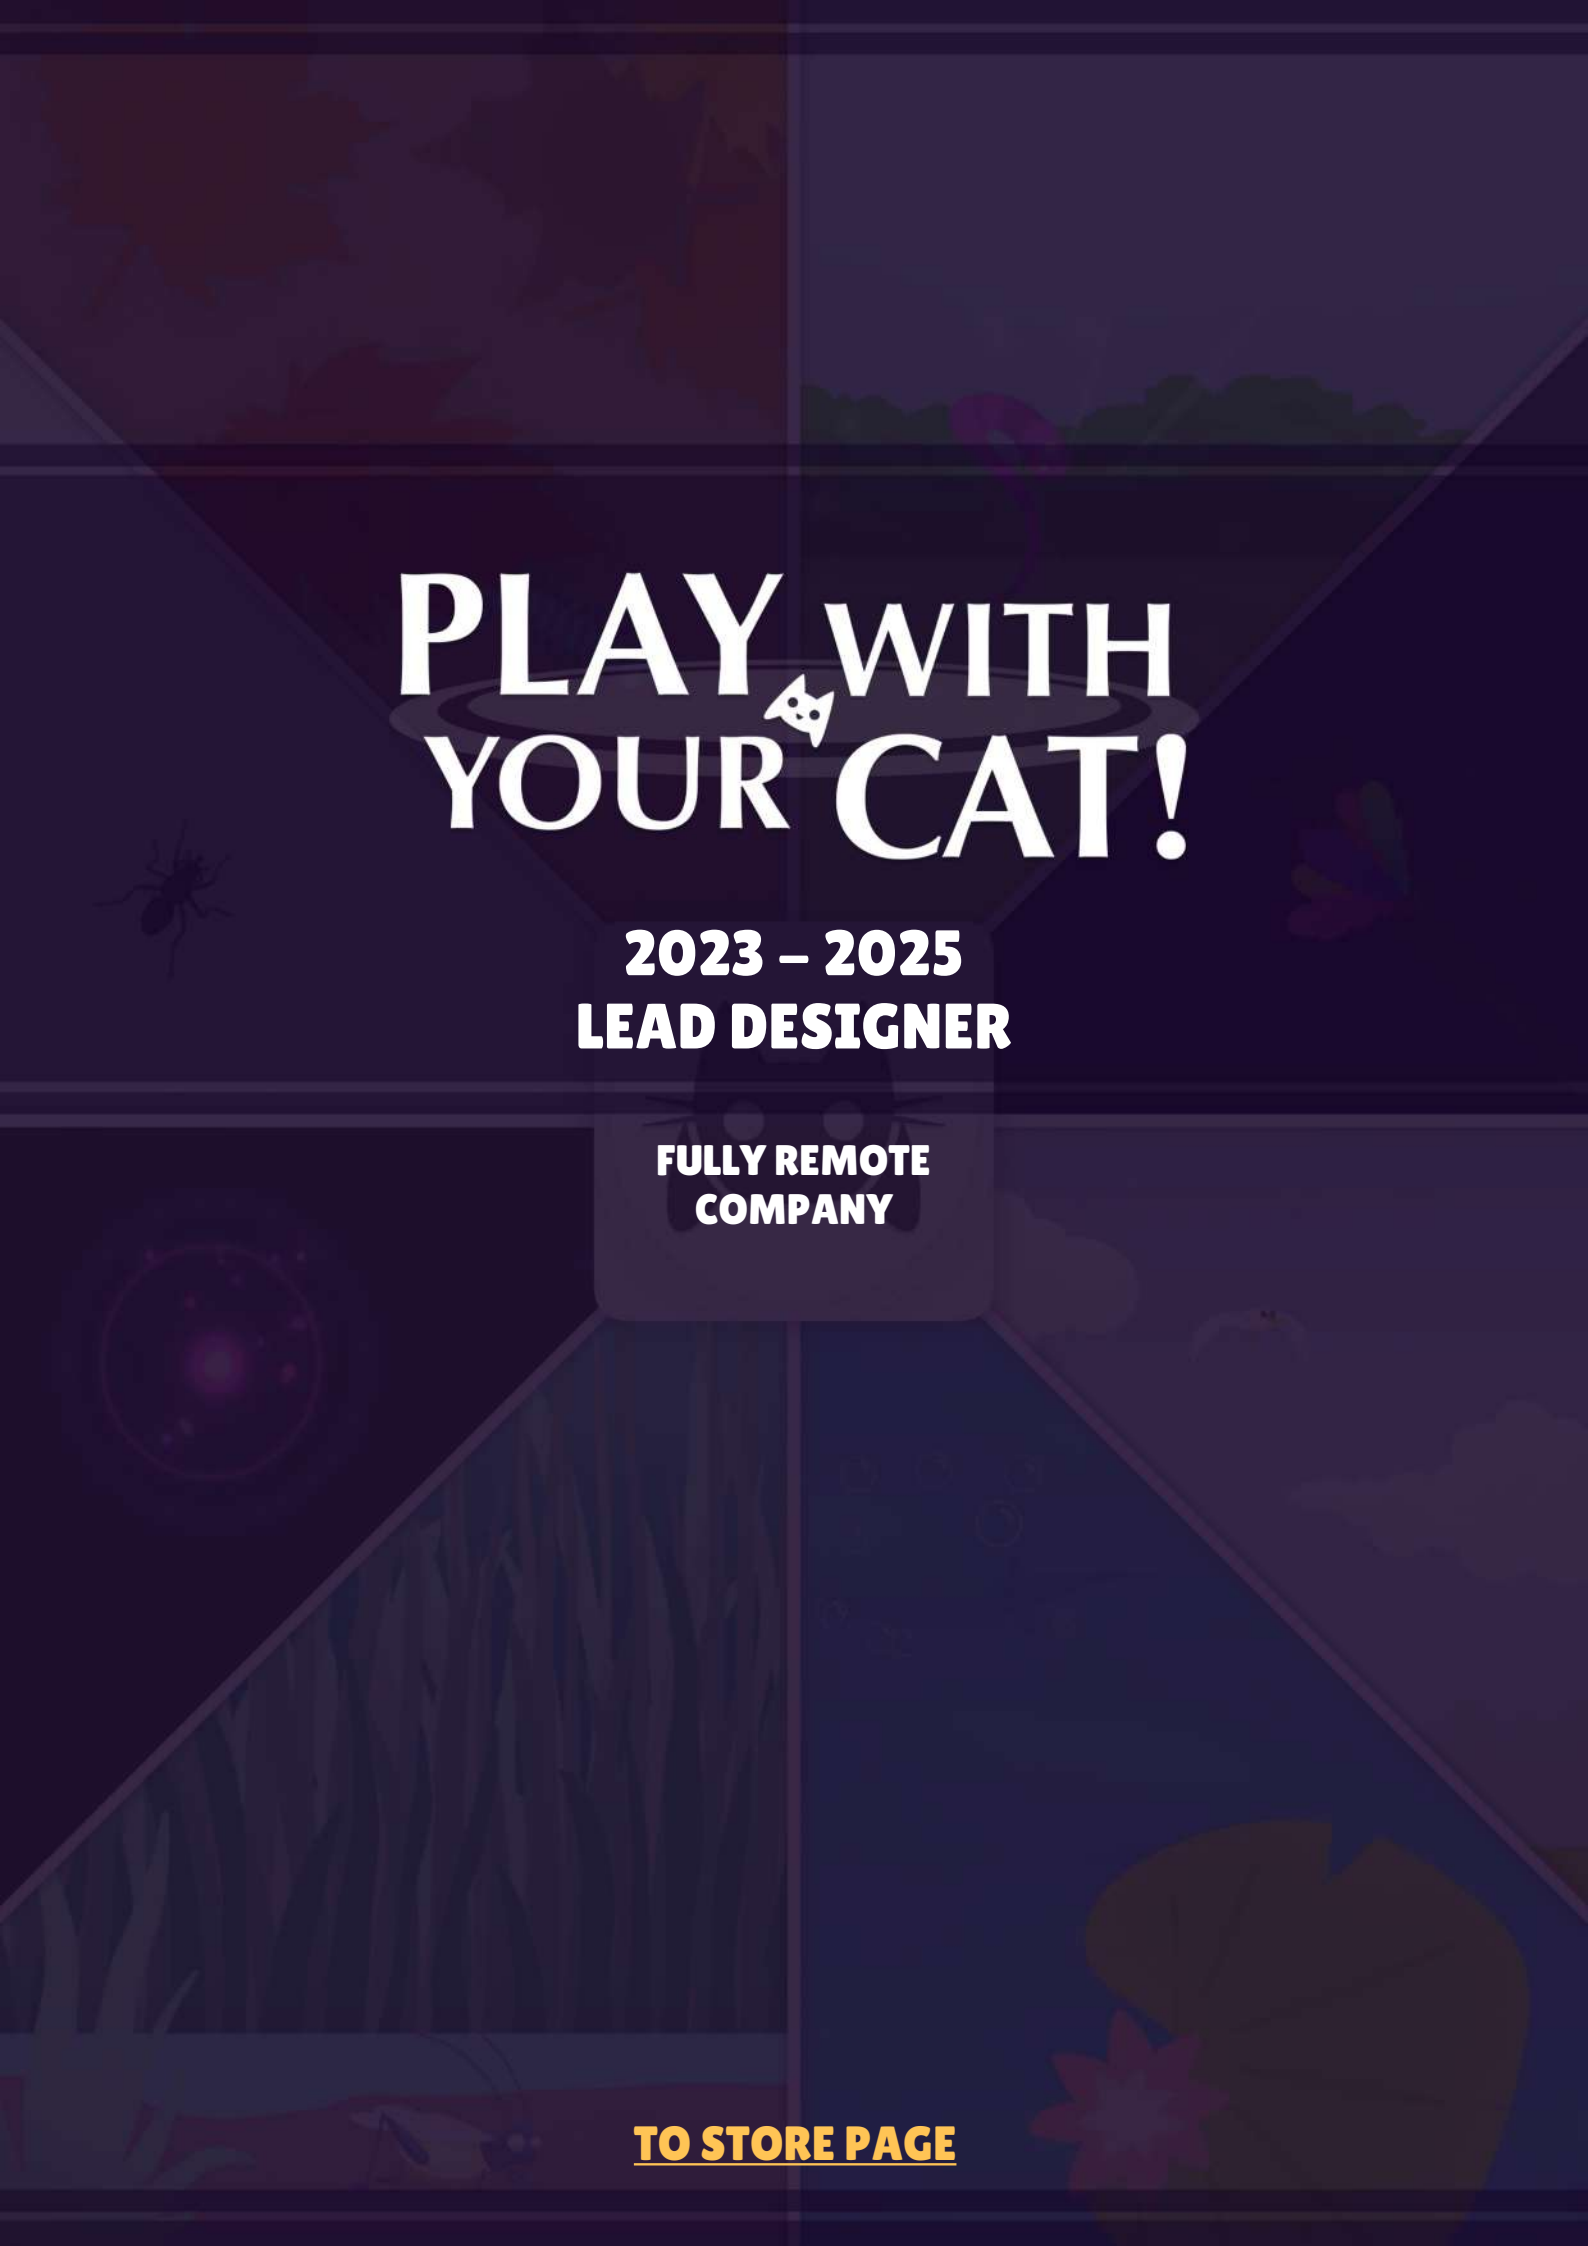

I've been working tightly with the co-founders and was quickly promoted as a **team coordinator.**

I've maintained our social media presence, polished up our website, created company presentations.

UNREAL ENGINE

The game is made with **Unreal Engine 5.4**. I've done most of the level work in all of the screenshots.

PLAY WITH YOUR CAT!

**2023 – 2025
LEAD DESIGNER**

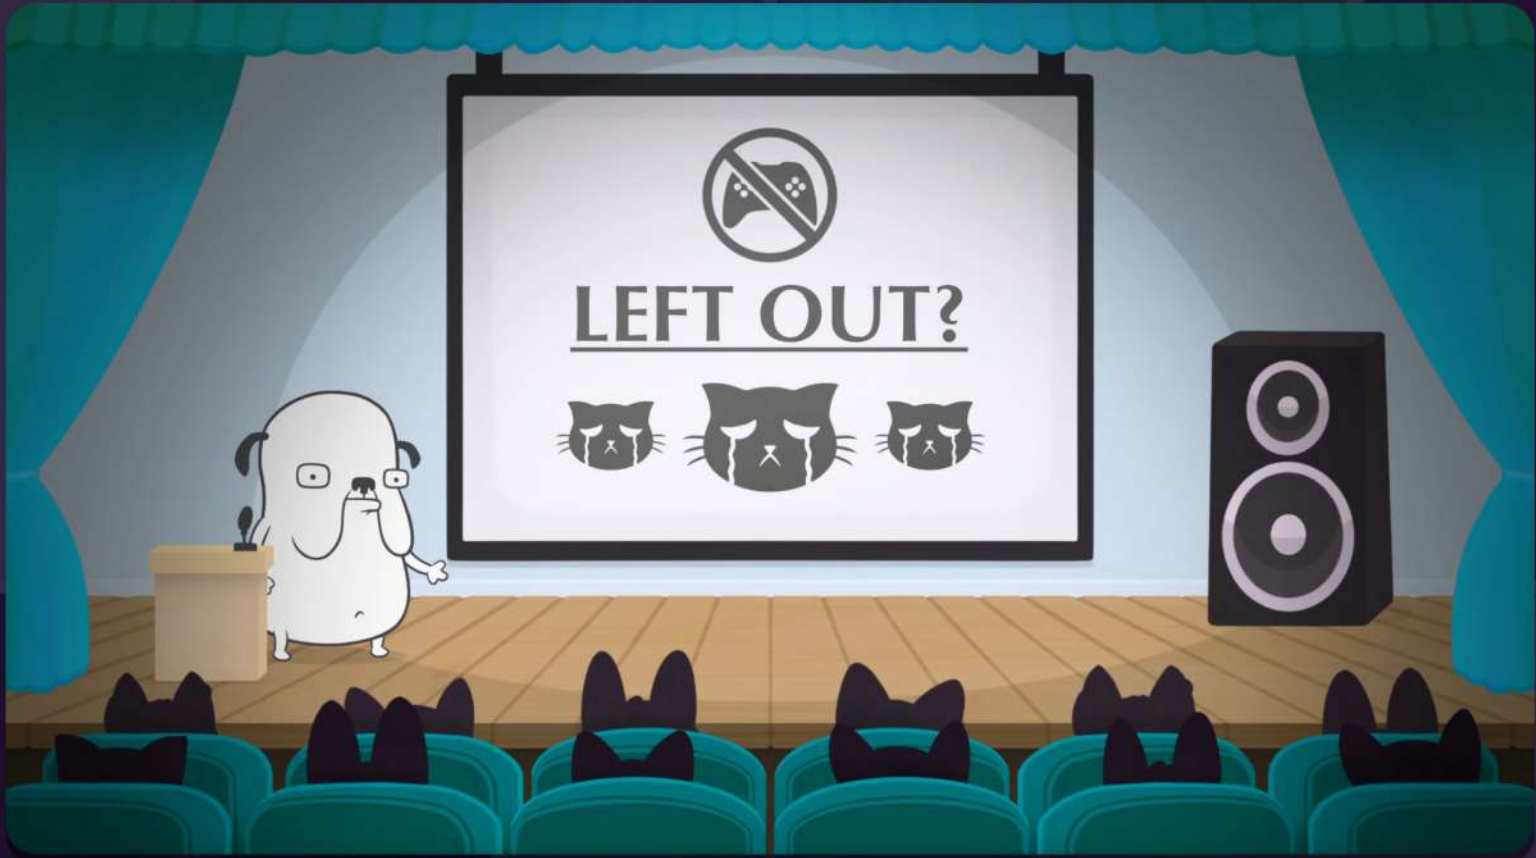

**FULLY REMOTE
COMPANY**

**TRY THE FREE TRIAL MODES
DEVELOPED FOR AN UNIVERSITY STUDY**

DESIGN & ART

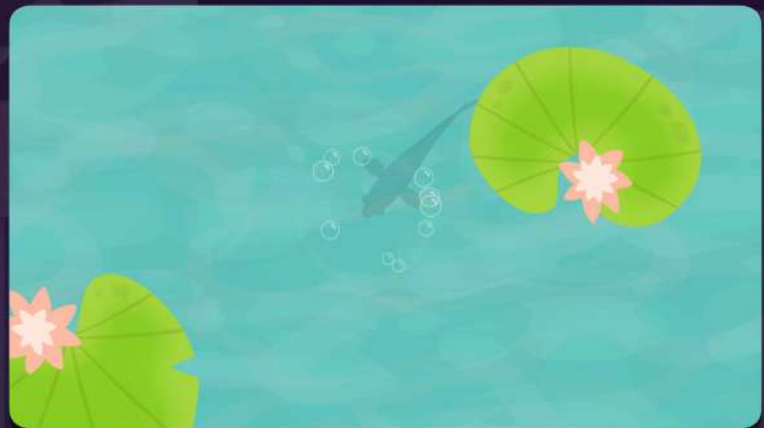

I am the CEO and co-founder of Herra Koira Company.

PWYC is built on my masters thesis' research artefact.

Check out the trailer for the app by clicking [here](#)!

We also do subcontracting on art and development.

GAME MODES

My responsibilities include design, prototyping, graphics, animation, audio and testing.

SPIRIT TRIALS

**2022 – 2023
GAME ARTIST**

**FULLY REMOTE
WORK**

[TO STORE PAGE](#)

SPIRIT TRIALS

CHARACTERS

I worked as a part time game artist + generalist while finishing my master's thesis.

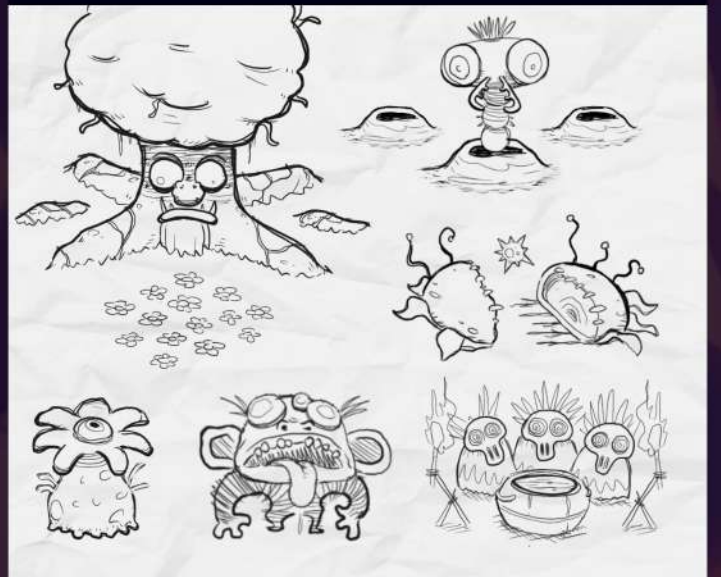

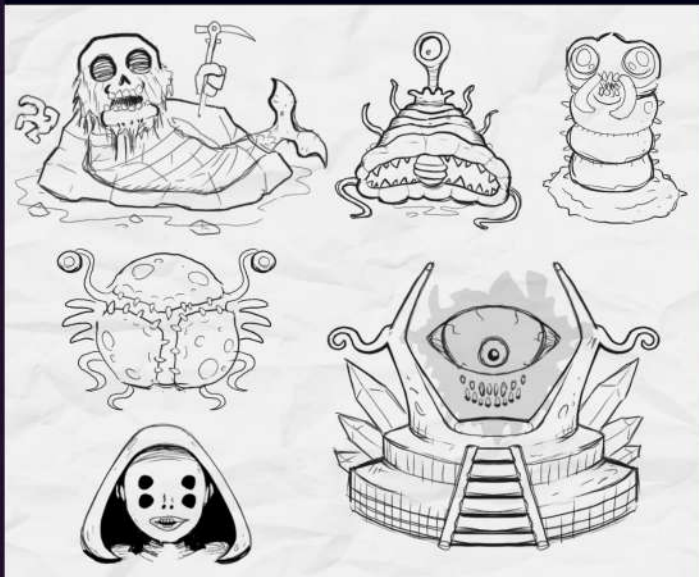

As the only artist in the project, I produced both the concept art and the actual game assets.

ENEMIES

36 boss designs + 52 enemy designs.

I voiced and produced all the sounds regarding bosses and characters.

ENVIRONMENT

I learned how to make tilemaps.

**Also composed and produced all the game music.
Some music samples can be found [here](#).**

MISCELLANEOUS

I did most of the UI assets.

Also worked as the main game tester, recorded gameplay and edited the trailers. Trailer [here](#).

The background is a dark, textured purple with faint, stylized illustrations of various fantasy creatures and weapons. At the top, there's a large, curved banner with the word 'TERRAMORPHERS' in a bold, yellow, 3D-style font. Below the banner, the text '2019 – 2022' and 'GAME ARTIST' is centered in white. Further down, 'FULLY REMOTE WORK' is also centered in white. At the bottom, a yellow button with the text 'TO STORE PAGE' is centered. The bottom half of the image features three prominent, stylized characters: on the left, a character with a beard and a hat; in the center, a character in a full plate suit with a large, gridded visor; and on the right, a character with a large, spiked helmet and a skull. The overall style is a mix of dark, muted colors and bright, bold text and graphics.

TERRAMORPHERS

2019 – 2022
GAME ARTIST

**FULLY REMOTE
WORK**

TERRAMORPHERS

EPIC ADVENTURE!
WITH BOSSES AND LOOT

FIND NEW GEAR!
CUSTOMIZE WITH ORBS

RAISE YOUR PETS!
LEVEL UP TO EVOLVE

EPIC ADVENTURE!
WITH BOSSES AND LOOT

COMPANION SYSTEM
VENTURE WITH BUDDIES!

MULTIPLE GAME MODES
LIKE NEW DRAFT MODE

CHARACTERS

Jemutt

Paldur

Maak

Sadon

I worked as a part time game artist alongside my university studies. I was the only artist in the project. Designed close to 250 character and enemy designs.

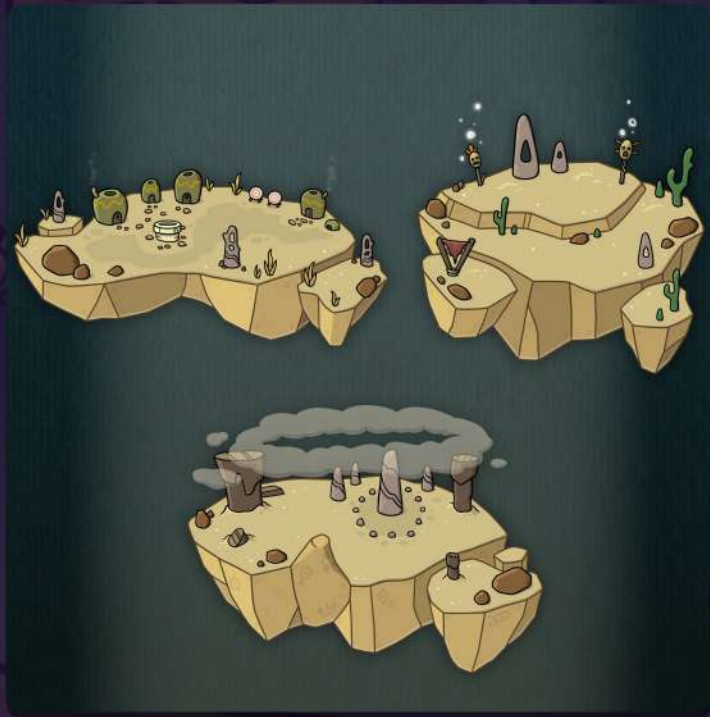

WORLD

Variety of different regions and arenas.

36 pets with evolutions.

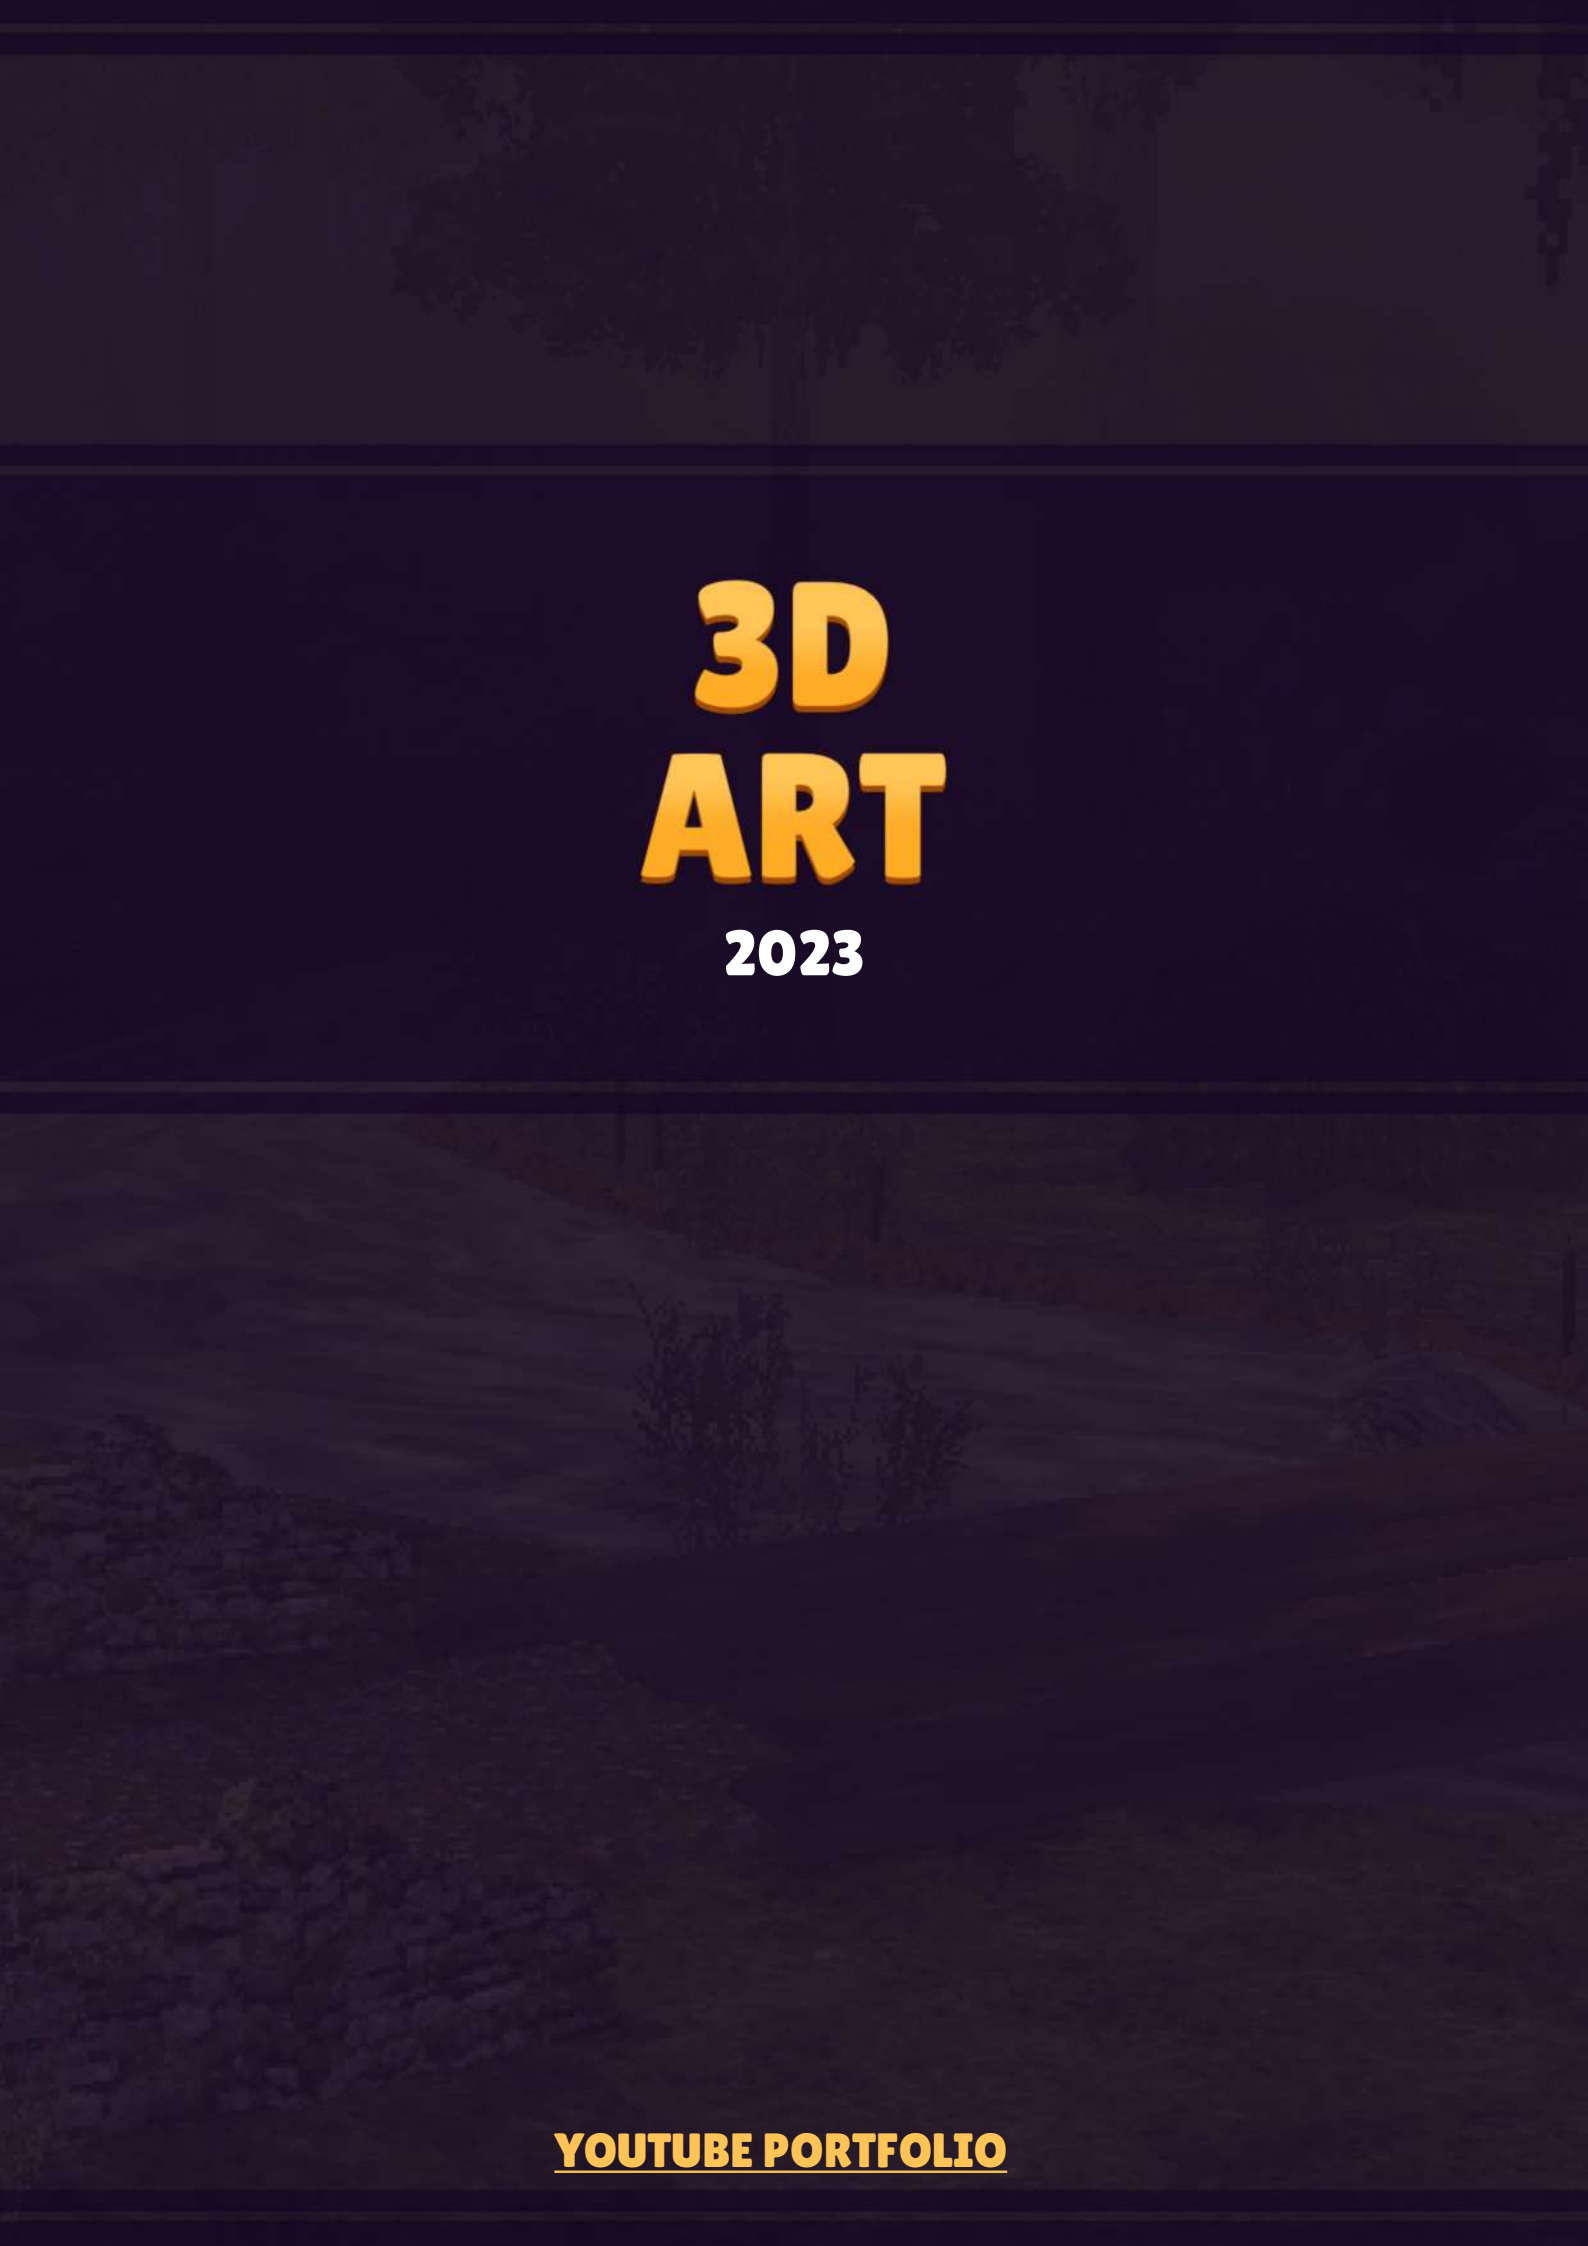

MISCELLANEOUS

I did most of the UI elements.

Gear, orbs, ores, scrolls, chests. You name it.

General overview of the game [here](#).

3D ART

2023

YOUTUBE PORTFOLIO

RETRO 3D

I spent 2 weeks of evenings learning retro styled 3D.

I really like this style and would love to make a game with this kind of old school look!

REALISTIC 3D

I have done building modeling as subcontracting gigs. Modeling, UV mapping, texturing etc.
This has been a great way to learn more realistic 3D.

INTERIOR

I have learned to play with PBR-materials and got familiar with Blender's general shader graph tools. You can find free materials, if you know where to look.

EXTERIOR

With these cabin designs I also made my first realistic 3D exterior scene.

Trees and bushes are flat PNGs though.

SCULPTING & 2.5D

The heads were a sculpting exercise. Video [here!](#)

The bottom one is a quick 2.5D visual demo. Demo [here!](#)

MISCELLANEOUS

I can also rig & animate. Learning performance efficient topology has also been important to me.

I can create modular environment, like the bottom right dungeon. Everything has been done with Blender.

2D ART

2018 – 2023

[TO MY WEBSITE](#)

FREELANCER

**I've done plenty of varying 2D freelance work.
This album cover being the most recent.**

**Other clients: Puolustusvoimat, EOD Europe,
Liveauto, Iris, Tohtori Tuulilasi, Riddle Me This.**

PRINTS

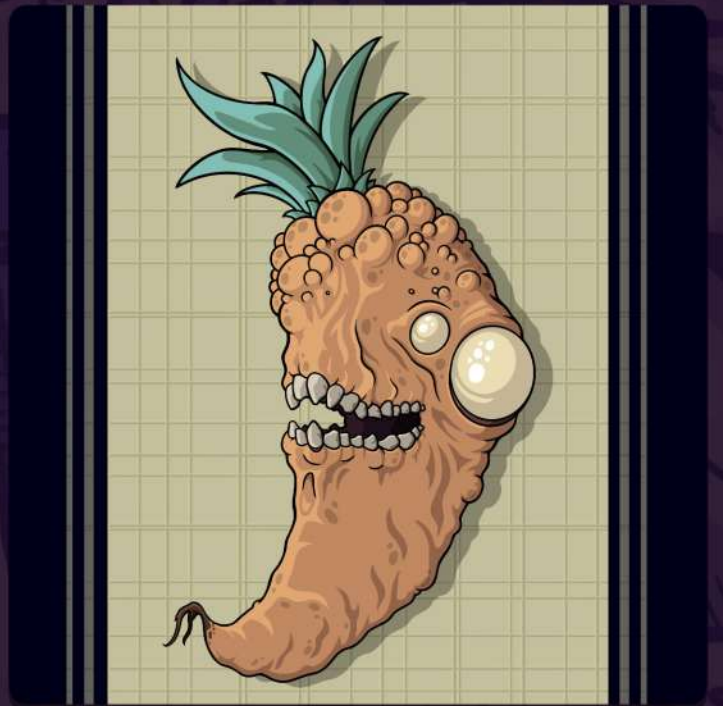

I like to try out different art styles.

**One might characterize my art style as crazy cartoony.
I love horror that doesn't take itself too seriously.**

THE
LOOK THAT GETS GIRLS

FAMILY RIGGED

I designed, rigged and animated these characters as an 2D rigging exercise. Check out the demo video [here!](#)

These could fit for a turn based RPG maybe?
